

6 February 1957

Captain C. H. S. Murphy
Commanding Officer and Director
USN Training Device Center
Port Washington, New York

Dear Captain Murphy:

I am writing as chairman of the Working Party for Coordination and Standardization of Intelligence Ground Photographic Procedures and Equipment to thank you on the group's behalf for the hospitality you so kindly extended to us on 24 and 25 January 1957.

While I was personally unable to attend, and I sincerely regret this, I have been most pleased by the enthusiasm of my own staff employees who were present. They returned to Washington with a high regard for the type and the scope of work taking place at the Center. They were particularly impressed with the quality and sincerity of the Training Device Center personnel who did so much to make their visit a success and they felt that as a result of the visit they had made real gains in knowledge pertinent to their field. I am certain, too, that the balance of the Working Party shares their views.

I hope that in the near future I will be able to visit your installation and avail myself of the missed opportunity of the past week. Again, on behalf of the Working Party and on my own behalf, thank you for a most profitable and enjoyable two days.

Sincerely

Arthur C. Lundahl
